

### • Certified Hoodia extract "Gordonii"

It is a south African plant considered as one of the rarest botanicals in the world it is the only variety believed to have the appetite suppressant in it. Hoodia is a succulent, fleshy cactus-like plant of the Asclepiad family, which is an original inhabitant of the Kalahari Desert in Africa. Among its many varieties, Hoodia Gordonii is the most popular because its extracts suppress hunger and effectively helps reduce weight and fat percentage.

### • Saffron extract

It is a natural supplement, made from the saffron crocus. The dried stigmas, threadlike parts of the flower, are used to make saffron spice. According to clinical studies, Saffron extract helps to reduce desire to snack, 50% fewer instances of eating between meals, fewer hunger, moderate weight loss, gives more energy and better mood.

### Acai Berry

Acai Berry grows on the Acai Palm Tree, which is found in Central America and South America. This fruit berry is loaded with vital antioxidants which slow down the pace of aging by retarding cell damage from free radicals. In addition, it has a strong reputation as an impressive weight loss aid that is all-natural, safe to use and side effect-free. Acai Berry decrease appetites. It gives access to potent appetite suppression which helps to shed pounds without feeling hungry or deprived. In addition, it increases metabolism, which makes the calories taken to be processed more efficiently. A speedy metabolism is absolutely one of the keys to a slimmer and sexier body

### • Red Raspberry Ketones

They are one of many compounds in raspberries and are what gives raspberries their unique smell. Like all things that come from fruits and vegetables, raspberries contain a lot of substances that are healthy - including anthocyanins, vitamin C and beta carotene. Raspberry Ketone can play a role in the breakdown of fat within the body. It helps to regulate adiponectin, which is the hormone which moderates fat. Using Raspberry Ketone in conjunction with a healthy diet will help you to take the burden off your liver, achieve your weight loss goals quickly and improve your overall health in the long-term.

### • Green Tea

It is the healthiest beverage on the planet. It is loaded with antioxidants and various substances that are beneficial for health. Many studies have shown that green tea can increase fat burning and help you lose weight.

### • Chromium

It is a metal. It is called an "essential trace element" because very small amounts of chromium are necessary for human health. It helps control blood sugar, curbs carb cravings and fights body fat.

## • L-carnitine

L-carnitine is a non-essential (sometimes conditionally-essential) amino acid that plays a crucial role in the transfer of fatty acids to the mitochondria. Natural sources of L-carnitine include animal-derived products, such as white and red meat, fish and milk. Regardless of what your bodybuilding and fitness goals are, losing fat or gaining muscle, your chances of success will increase greatly if you have L-carnitine in your supplement arsenal.

# Slimi7
