

REDUCE

(8 ml x 10 vials)

REDUCE is recommended to treat localized fat accumulations such as thighs, hips, abdomen, buttocks, knees, double chin etc. REDUCE has been designed with an amino acid complex to optimize its action. REDUCE is an optimized mixture of Lecithin (phosphatidylcholine), Cynara Scolymus Extract, Caffeine and several Amino Acids. These ingredients work in synergy to eliminate fat deposits and act in synergy as tissue detoxifiers, providing a protective effect against oxydative stress. The Amino Acids contain all the metabolites essential for stimulation, growth and regeneration of skin tissue.

Main active ingredients:

- Lecithin (phosphatidylcholine), naturally abundant in cell membranes, this phospholipid, breaks down the fat stored in fat cells, it emulsifies the fat, allowing it to be absorbed into the bloodstream and transported. This makes it the ideal solution for eliminating localized adiposities.
- Cynara Scolymus Extract, stimulate the lymphatic system, helping to drain impurities and detoxify. Strong effect against free radicals, with its antioxidant, anti-peroxidase properties.
- Caffeine, is a well-tolerated and effective alternative treatment modality for reducing the diameter of body circumference.
- L-Arginine, assists in the skin's wound healing process by reducing inflammation, aiding in tissue formation, and serving as an antioxidant to help boost the immune system. This amino acid is also blood flow and increasing circulation. L-Arginine is involved in the collagen synthesis process to help restore the look and feel of healthier, younger-looking skin.
- L-Methionine, assists in the breakdown of fat, aids in maintaining healthy skin tone and serves as an important antioxidant and detoxifying agent.
- L-Glutamine serves a number of specific functions that help skin cells to function optimally for smooth, healthy-looking skin. L-Glutamine has been shown to play a key role in the growth of fibroblast cells. These cells synthesize collagen. By stimulating collagen production, glutamine helps to reverse the effects of aging, restoring a smoother tone and texture to the skin. L-Glutamine also offers free radical protection by aiding in the

Ingredients:

Purified Water, Lecithin, Cynara Scolymus Extract, Caffeine, L-Arginine, L-Methionine, L-Glutamine, Benzyl Alcohol, Hydrochloric Acid.
